Understood. Would it make sense if he was a student manager? I have to speak to his dad first though.

His dad was looking at supporting the department and just trying to think of how we could help. If student manager doesn't make sense from your point of view or his, I'll work with him personally to help with his admissions application. Doesn't matter to me one way or the other.

Also, I'm meeting with [REDACTED] next month. Thank you to you and Lisa for sending along!

Good luck up north over the weekend!

Joseph,

His resume is very weak, he is league's honorable mention, he will never play for us.

Thanks,

Jovan

Joseph,

Attached is [REDACTED] water polo resume. [REDACTED] will receive his next transcript in December. I believe we already forwarded you the most current transcript and test scores as of last June. [REDACTED] currently has an unweighted 3.8 gpa so far this semester.

We'd love the opportunity to bring [REDACTED] down for a school tour and ideally meet with you again along with Jovan.

Fight on,  
[REDACTED]
